

UNITED SPRAY BOOTHS Ltd.

ULTIMATE PERFORMANCE FINISHING / REFINISHING SYSTEMS
THE MOST INEXPENSIVE PAINT FINISHING SYSTEM

CROSS DRAFT

Excellent starter spray booth for automotive or industrial use

The Square Economy Cross Draft Spray Booth is designed to be used as an automotive or industrial paint finishing application system.

This economic model is as efficient as the more expensive spray booths. For automotive applications this model has the capacity to complete several paint finishing jobs per day without heat.

The production rate can be increased with the addition of an air make up unit.

MEETS: OBC, OFC, OML, OME, OSHA, NFPA, UL, BOCA CODES
Designed and manufactured by **UNITED SPRAY BOOTH Ltd.**
